# TPS GREENWORKS

A TPS Worksite Solutions(TM) business

# Retaining Wall Landscaping Options

Plant supply, installation and landscape finishing for newly completed retaining walls.

## Suitable plant options

Plants are selected for the wall position, sunlight, drainage, available space and the finished look required.

**LOMANDRA**
Hardy wall-side structure

**DIANELLA**
Compact foliage and colour

**SCAEVOLA**
Cascading flowering groundcover

**WESTRINGIA**
Neat screening shrub

**DWARF BOTTLEBRUSH**
Compact native feature

**TUCKEROO**
Feature tree with suitable set-back

## TPS Greenworks can coordinate the complete finish

- Plant selection and supply
- Soil preparation
- Professional planting
- Mulch and garden edging
- Plant Installation
- Establishment maintenance

**CREEPING BOOBIALLA**
Low native groundcover

**BRACHYSCOME**
Flowering native daisy

**LIRIOPE**
Tidy border for sun or shade

**GARDENIA RADICANS**
Compact fragrant shrub

**CASUARINA COUSIN IT**
Cascading wall feature

**CREPE MYRTLE**
Feature tree with suitable set-back

## Right plant - Right position

Low plants and compact shrubs can soften the wall edge. Feature trees require suitable set-back and must be selected around mature size, drainage and engineering requirements if applicable.

**Turn the finished wall into a finished landscape**
Ask TPS Greenworks for a tailored planting and landscape finishing option.
